

McCain, Inc.

# Turnkey Manufacturing

Full-Scale Production Facilities in the U.S. and Mexico

# McCain, Inc.

NORTH AMERICAN  
MANUFACTURING &  
INGENUITY

## Our Company

For over 25 years, McCain has been refining the art of manufacturing, helping customers streamline their business and maintain profitability.

By partnering with McCain, an American company with manufacturing facilities in the U.S. and Mexico, you capitalize on reduced labor and shipping costs while leveraging over 25 years of acquired industry knowledge, talent, and expertise.

## Our Commitment

McCain operates on the principal that quality products, reliable service, honesty, and integrity are the keys to success. McCain is committed to providing cost-effective, high-quality manufacturing solutions and superior customer service.

# Outsource to Win

STREAMLINE & SAVE

## WHY OUTSOURCE?

Outsourcing all or part of your manufacturing allows you the time and financial resources to focus on your core business. As a one-stop shop for a multitude of turnkey manufacturing and value-added services, McCain eliminates the need and hassle of dealing with multiple vendors for pieces and parts.

By streamlining your manufacturing, McCain helps you establish a competitive advantage by accomplishing tasks quicker, more efficiently and economically.

## CONVENIENT LOCATIONS

McCain's full-scale contract manufacturing facilities are conveniently located in Southern California and Mexico.

Neighboring its corporate headquarters, McCain's 100,000 sq. ft. manufacturing facility in Vista, CA is equipped with the latest in automated machinery, equipment, and tools. Items manufactured at McCain's 140,000 sq. ft. facility in Mexico are accelerated across the border through the C-TPAT program, alleviating worries of shipping delays due to Customs.

## VALUE-ADDED SERVICES

McCain is dedicated to providing complete turnkey solutions that exceed quality standards in the manufacturing industry.

McCain supplies customers with fully assembled and packaged, ready to ship, high-quality products by offering value-added services including:

Engineering and design

Silkscreen printing

Welding

Labeling and packaging

Assembly - PCB, mechanical, electrical, sub, and metal

Shipping and delivery

# Economical Solutions

FOR A BETTER TODAY & TOMORROW

## SHEET METAL FABRICATION

McCain's sheet metal department has the capacity to produce standard and custom parts to accommodate just about any design. With a variety of automated stations, McCain offers laser cutting, turret punching, bending, and more.

## DIE CASTING

McCain's die casting production is equipped with presses ranging from 400 - 1,000 ton, producing high precision parts. Made from non-ferrous metals, die casting is a relatively simple, cost-effective process, ideal for high-volume production for a broad range of shapes and sizes.

## POWDER COATING

Commercial-grade powder coating services are available for parts large and small and a variety of end-use markets. State-of-the-art automated and large-scale batch systems coupled with McCain's proprietary 7-stage pretreatment process, deliver a consistent and superior finish that will stand the test of time.

## CNC MACHINING

McCain's Computer Numerical Control (CNC) machining capabilities range from high production to critical precision machining and everything in between. With in-house tooling, McCain's accurate and cost-effective machining centers help eliminate long lead times.

## WIRE HARNESS & CABLE ASSEMBLY

McCain's wire harness and cable assembly capabilities cover a variety of applications, each designed to meet your specific configuration requirements. Specializing in control and panel wiring assembly, all assemblies undergo a thorough quality inspection process to ensure adherence to McCain's rigorous quality standards.

## ENGINEERING & DESIGN

McCain's team of cross-functional engineers offer value-added design services to help identify ways to reduce cost and improve product quality.

## IN-HOUSE SUPPORT

McCain's in-house support provides the highest customer service available; providing timely solutions and support that help you stay on track.

## SHIPPING & DELIVERY

Conveniently located in Vista, CA between its two North American production facilities, McCain's distribution center and privately-owned fleet make shipping and delivery an ease.

## MCCAIN MANUFACTURING

Headquartered in Vista, CA, McCain operates more than 300,000 sq. ft. of real estate spanning the U.S. and Mexico. The company's two main manufacturing facilities in Vista, CA and Tijuana, Mexico offer turnkey manufacturing solutions to a variety of businesses and industries including:

- Aerospace and defense
- Alternative energy
- Auto and transportation
- Communications
- Computer hardware
- Electronics
- Gaming
- Information technology
- Medical equipment
- Power generation and storage
- Transportation
